

THOMAS DRUGÉ

Postdoctoral researcher
in climate science

RESEARCH INTERESTS

- Atmospheric modelling
- Modelling and study of aerosol-radiation and aerosol-cloud interactions
- Aerosol effects on climate and feedbacks

CONTACT

06.50.40.49.60

thomas.druge@meteo.fr

Météo-France, Centre National de Recherches Météorologiques (CNRM), Climate and Large-Scales Modelling Group (GMGEC), MOSCA Research Team, 42 avenue Coriolis, 31057 Toulouse (France)

EDUCATION

PhD in regional climate system modelling

Météo-France, CNRM (France) | 2016 – 2019

“Contribution of aerosols to climate scenarios in the Mediterranean for the XXI century in regional scale.”

Supervisors: Dr Marc Mallet, Dr Pierre Nabat & Dr Samuel Somot

MSc in environment – climatology

University of Burgundy (France) | 2014 – 2016

Supervisors: Pr Pierre Camberlin

RESEARCH EXPERIENCE

Postdoctoral researcher - Météo-France, CNRM (France)

- 08/2021 – 03/2024 : Climate-aerosol interactions study (ESM2025 - Horizon 2020 project).
- 01/2020 – 07/2021 : Development and improvement of the aerosols parameterization at the global scale (CAMS_43 - CAMS project).

Supervisors: Dr Martine Michou, Dr Pierre Nabat & Dr Marc Mallet

LANGUAGE and SKILLS

French: native

English: fluent

Computer skills: Fortran, NCL, R, Matlab, Linux/UNIX environment, LaTeX
