

General Assembly 2012

Licences: GLAMEPS

- GLAMEPS: data policy for GLAMEPS
 - Contributions, within ALADIN, mostly from Be (but with some FR stays, Cz, Hu)
 - Three issues:
 - **Science:** we would like as much as possible for everyone to use GLAMEPS for scientific purposes
 - **Products:** follow the MoU. A partners who develops the product is owner
 - **Guarantees:** GLAMEPS will enter TCF-2
 - Extra issue some partners (e.g. Al, Tu) are not member state nor have a cooperation agreement of ECMWF
 - From a brain storming during the HAC: idea of **GLAMEPS product partners**. To be a product partners one has to “contribute” to the maintenance (in SBU, or man power)
 - **Does PAC agree with this in principle?**
