Dear all,

In contrary to what is said in the FLUB for cy40t1, http://www.cnrm.meteo.fr/aladin/IMG/pdf/cy40t1.pdf, LGUSTBYPOS is not available in the namelist NAMXFU.

It's easily corrected by:
https://hirlam.org/trac/changeset/14582/trunk/harmonie

Regards,
Ulf Andrae, HIRLAM-B project leader for system
