

PREDICTABILITY (1)

- Common visualisation and verification tools
 - Discussions started but unification of tools seems not so easy; possibility to make available and use all existing tools?
 - Working week in Sweden (mid June) to build HIRLAM eps system/environment (scripts, verif & visualisation tools) – possible ALADIN participants?

PREDICTABILITY (2)

- **GLAMEPS: HIRLAM-ALADIN Grand Ensemble (talk of N. Gustafsson)**
 - common domain, common processing;
~200members
 - Proposal for special project at ECMWF ~feasibility study (in 2007)
 - Call for interest from countries this week (proposal to be ready by VIII/2006)
 - Now limited to HIRLAM&ALADIN, but extension to other consortia possible (@EWGLAM) in the “NWP vision spirit”

- Comments on general concept/goals?
- Comments on proposed GLAMEPS setup?
- Things to be considered?
- Comments on next steps/timetable?
