

# Summary of the working group on code and applications

- 25 people
- Topics discussed :
  - Specific items
  - Installations
  - General aspects
  - Debate
- Postponed : validations

# Specific items

- Gmckpack
  - Commented by users, lacks pointed out
  - Fancy tool
  - No developments targeted
- DrHook
  - Presentation of the tool
  - Fancy tool
  - Portability to be issued via phasing exercises

# Installations

- Status of the local implementation
  - Cycle 28T3 not yet finalized everywhere
  - Few country using ODB
  - Status of OPEN-MP facility
- Code implementation at ECMWF (hird) **(hird)**
  - Long discussion
  - Problem : to be EC member
  - Special project at ECMWF with associated members ?
  - A. Horanyi will ask the ECMWF
  - Installation on ecgate for running conf 901 ?

# General aspects

- Content of Future cycles
- Training
  - Training about code issues for HIRLAM group before data assimilation in Budapest at the beginning of the workshop.
- Portability issues
  - how to channelize the relevant informations to right people. Creation of forum, on ALADIN web site ?
  - Xrd cleaning under progress ; Volunteers welcome for porting DrHook

# Debate

How to maintain/phase/validate  
several physics ?

(long silence)
