- **Date**: Mon, 12 Feb 2018 13:33:47 +0100 (CET)

Dear all,

Here is an update of gmkpack, mandatory since cycle 45t1_r1.
What's new :
- change satrad interface block generator to filter the keyword FUNCTION in comments (Credits : S. Martinez)
- support for new projects crm and ifsobs

Note that the build of 45t1_r1 requires also to :
- replace grib_api by eccodes library (downloadable at ECMWF) in configuration files
- update the mpidummy library with mpi_finalized_ (needed for the sequential executables)

This new version has been installed on MF supercomputers "beaufix" and "prolix", on the PCs of GMAP and at ECMWF on CCA.
The former version can still be used, as "gmkpack.old"

The tar file can be found on ecfs and hendrix :
ec:/rme/hirald/gmkpack/gmkpack.6.6.7.tar.gz
hendrix:/home/khatib/gmkpack/gmkpack.6.6.7.tgz

Best regards,
Ryad
